ORIENTATION

PARTNERS OF THE EROVET PROJECT

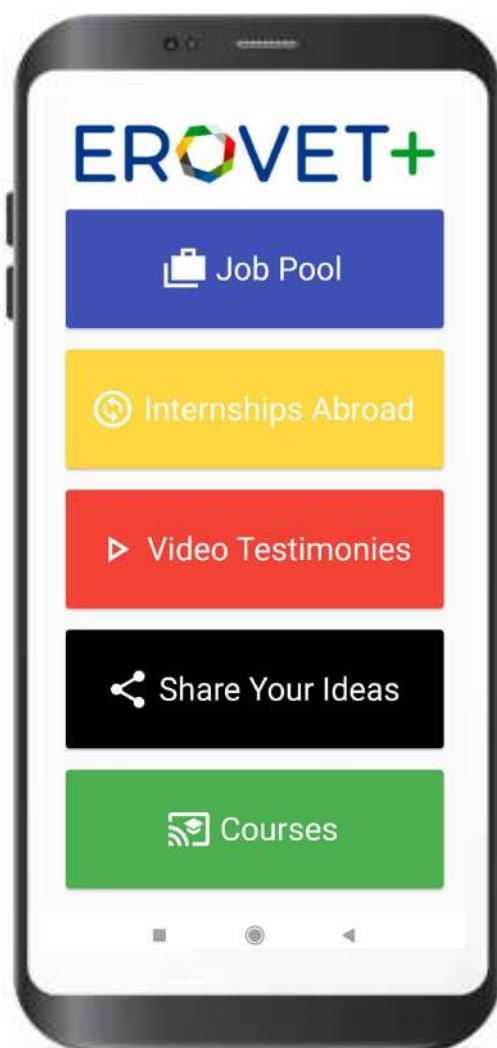

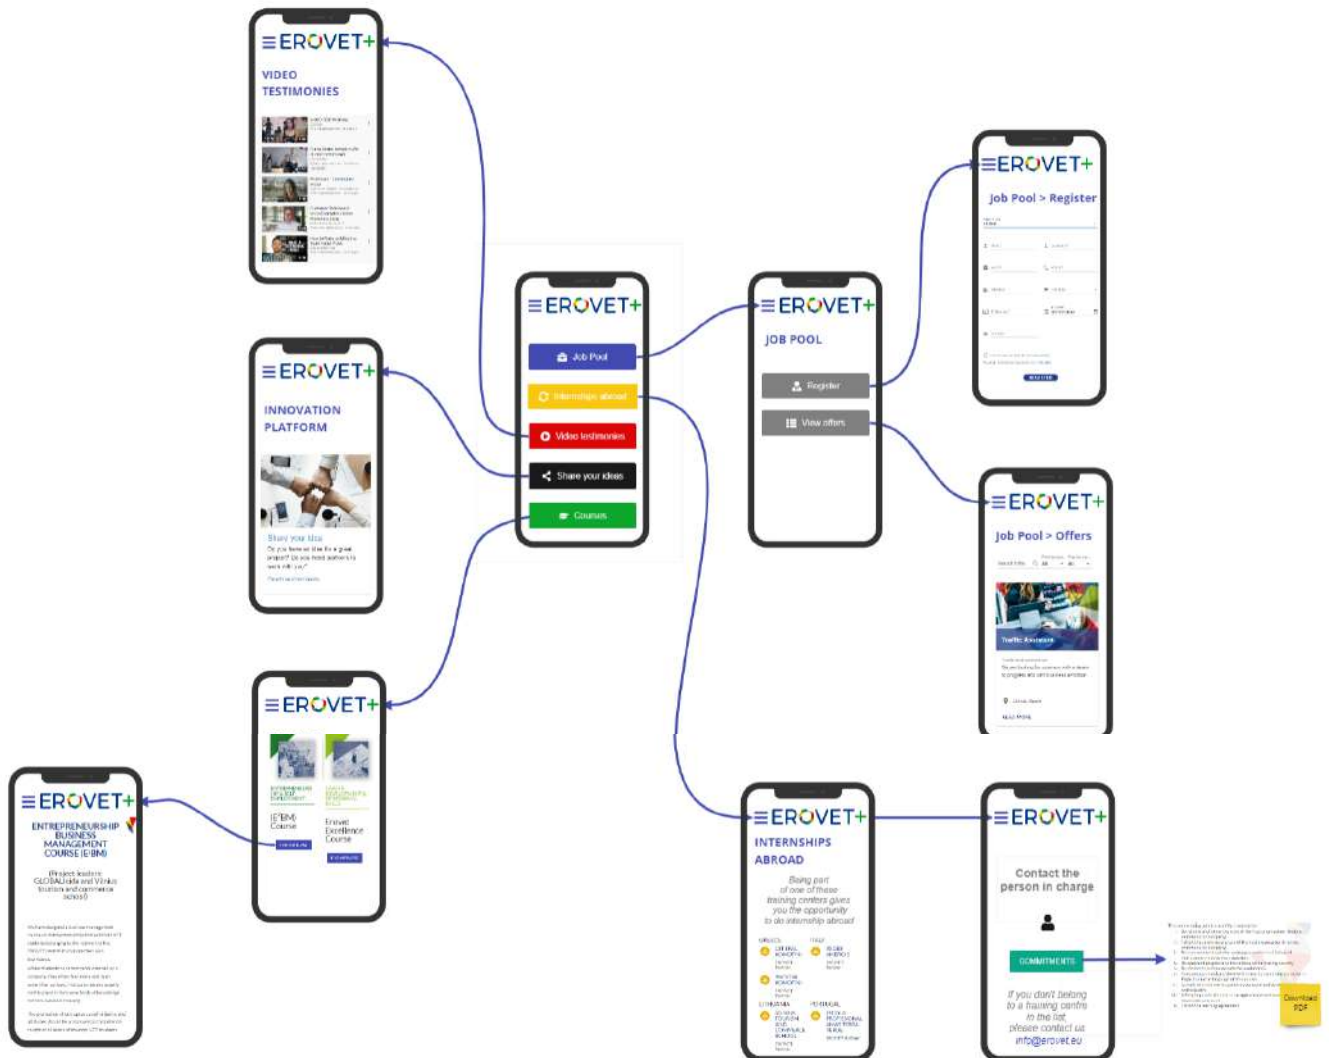

Download our APP

<https://play.google.com/store/apps/details?id=com.erovetv2.erovetv2>

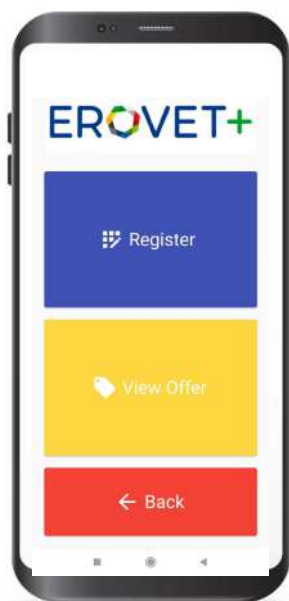

EROVET offers you an **app** where you will be able to find information on the following issues: **Job Pool**, **Internships abroad**, **Video testimonies**, **Share your ideas** and **Courses**.

When downloading the app, it will appear these five categories that are linked with the following content:

The creation of the EROVET+ app main purpose is to support guidance and orientation. It has 5 sections and each one is linked to some of the results /services of the current and previous projects:

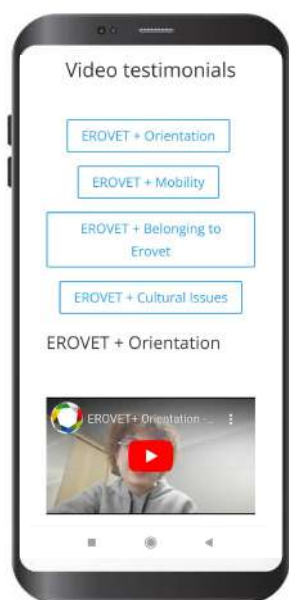

- **Job pool** where both students and companies can register by filling their personal information and they will see company offers, also. Students can apply if interested in an offer.

Through this platform, participants will not only have easy access to their local labour market but also to national and European ones. To do this, detailed information is provided about:

- Job offers.
- How can the company offer a job on the Erovet Job Pool?
- How can a VET student or former VET student apply for a job offered on the Erovet Job

Pool?

- **Internship abroad:** By being part of one of EROVET training centers, students have the opportunity to do an internship abroad. By using the app, students can contact the person in charge of the training center abroad.

- **Video testimonials:** when users will be willing to see videos, they will be able to find everything produced arranged by categories: EROVET+ european mobility, EROVET+ orientation, EROVET+ cultural issues and belonging to EROVET.

These videos particularly promote VET training and positive opportunities in key economic sectors of each partner country. They include experiences of young people, businesses and training centers. The aim of the videos is to illustrate and give advice to young people about different opportunities in the

different EROVET countries. Different types of videos have been produced by partners.

- **Share your ideas** where users will be able to go directly to the Innovation platform where joint innovative projects developed by learners in the partnership can be uploaded. The platform is also the means to find mentorship, financial support or practical support to improve or develop the projects.

There are three categories now available: “Find a challenge”, “Share your idea” and “Sponsor a project”

- **Courses:** users can access and enroll directly to a Managerial skills course on Moodle platform and check the contents.
